July 2006 PREVIEW

Tour of Italy - Take a scenic tour of Italy with these entirely handpainted and food-safe wall plates. Each handpainted platter illustrates a famous Italian location: the Spanish Steps and the Vatican in Rome, the Grand Canal and Chiesa della Salute in Venice, and the Ponte Vecchio and Il Duomo in Florence. A

picturesque collector's set that serves and decorates!

Garden Stones - VIETRI searched for several years to find just the right artisans to make our Garden Stones, newly named for the stones placed on the walls of homes and gardens throughout Italy as symbols of good health and prosperity since the 16th century. Our Garden Stones are made by Tuscan artisans who paint with rich details and colors. Great gifts, Garden Stones represent a long-standing tradition of good will and meaningful decoration.

Antique White Wall Décor – Inspiration behind these Antique White wall pieces came from the famous 19th century Tuscan artisan Telemaco Signorini. He was one of the first to paint the outdoors and often captured life in Italy for what it was. Having painted scenes similar to these, Signorini left a legacy that VIETRI now brings to you!
